

EDUCATIONAL SESSIONS/CREDENTIAL COURSES/WORKSHOPS/SPECIAL EVENTS

2009 ATLANTA GEORGIA

ANNUAL CONFERENCE
National Environmental Health Association
73rd Annual Educational Conference (AEC) & Exhibition
Sunday, June 21—Wednesday, June 24
Hyatt Regency Atlanta

SUSTAINABILITY
Educational Program

National Environmental Health Association 73rd AEC & Exhibition

The National Environmental Health Association (NEHA) believes protecting our natural environment is critical to the health and prosperity of our communities and world. At the 73rd Annual Educational Conference (AEC) & Exhibition, NEHA is expanding the Sustainability educational track to focus on the role of environmental health in climate change, built communities, and sustainable development. A special keynote presentation by CDC leader, Dr. Howard Frumkin, MD, MPH, DrPH will explore how environmental health professionals can assist communities and governments develop far reaching and long-term strategies designed to ward off prolonged climate change and achieve sustainable ways of living with and within the natural environment.

NEHA is also aggressively pursuing ways in which to “green” our AEC & Exhibition. We will continue our initiatives to “green” the conference by:

- doing more to electronically promote the conference and reduce our direct mail promotions
- locating recycling bins throughout the conference
- expanding the focus on sustainability in the educational program
- recycling plastic conference name badge holders
- providing a list of “green” restaurants, attractions and local public transport map to attendees
- offering the purchase of carbon offsets along with conference registration. (See registration form for details.)

For information regarding all educational sessions and events offered at the NEHA 2009 AEC & Exhibition, visit neha.org for the most complete and up-to-date information.

NEHA's 2nd Annual Excellence in Sustainability Award

With the Annual Excellence in Sustainability Award, NEHA looks to recognize any organization, business, association, individual, or NEHA member who is solving environmental challenges by using innovative and environmentally sustainable practices with its Annual Excellence in Sustainability Award. At the NEHA 2008 AEC & Exhibition, The City of Plano's “Live Green in Plano” program was awarded the first-ever Excellence in Sustainability Award. The “Live Green in Plano” program created a culture within the organization that advanced sustainable building practices in both commercial and residential development, as well as future remodel and re-development projects.

NEHA is now accepting applications for the 2nd Annual Excellence in Sustainability Award to be awarded at the 2009 conference. To submit an application and for deadline information, visit neha.org and click on “Sustainability” or contact Denise Devotta at ddevotta@neha.org/303.756.9090 ext. 313.

SUSTAINABILITY EDUCATIONAL PROGRAM

Learning Laboratory

CLIMATE CHANGE: UNDERSTANDING AND DEBATING ITS POTENTIAL IMPACTS

Participate in these educational sessions and hear both sides of the climate change debate; get an outlook on the disproportionate impacts of climate change on differing segments of the nation's population; and learn of the efforts CDC is undertaking to prepare the nation for the potential impacts of climate change.

Monday, June 22: 1:00 – 1:50pm **Taking the Pulse of a Changing Nation: Findings from a Survey on Climate Change and State/Territorial Health Agencies**

Daniel Sinclair, MPH, Analyst, Environmental Health, Association of State and Territorial Health Officials, Arlington, VA and Gino Marinucci, MPH, Senior Director of Environmental Health, Association of State and Territorial Health Officials, Arlington, VA

Monday, June 22: 2:00 – 2:50pm **Ensuring Accountability and Sustainability: Using Coalition Building, Capacity Building, and Community Leadership to Address Environmental Health Hazards in the South Atlanta For the Environment (SAFE) Project**

Abayomi Noibi, PhD, Executive Director, ECO-Action, Atlanta, GA; John Steward, PhD, Professor, Institute of Public Health, Georgia State University, Atlanta, GA; Margaret Hooker, Community Environmental Health Organizer, Eco-Action/Dirty Truth Campaign, Atlanta, GA; Karen O'Quin, ECO-Action Intern/MPH Student, Institute of Public Health, Georgia State University, Atlanta, GA

Tuesday, June 23: 8:30 – 9:20am **The Case Against Anthropogenic Climate Change**

Dan Dennison, retired Director of Environmental Compliance, City of Lubbock, Texas

Tuesday, June 23: 9:30 – 10:20am **The Science Behind Climate Change**

Dr. David Levinson, Physical Scientist, Scientific Services Division, NESDIS, National Climatic Data Center at the National Oceanic and Atmospheric Administration (NOAA), Asheville, NC

Tuesday, June 23: 10:30 – 11:20am **Effects Of Climate Change On Human Health: CDC Takes Action**

Dr. George Luber, Director for Global Climate Change, National Center for Environmental Health, CDC, Atlanta, GA

Tuesday, June 23: 1:00 – 2:50pm **Health Disparities and Climate Change**

Dr. Dayna Campbell, PhD, Associate Professor, Allen University, SC and Lesley Joseph, University of South Carolina, SC

Lecture Hall

THE BUILT ENVIRONMENT AND SUSTAINABILITY

In these educational sessions, explore how smart growth initiatives can be interwoven with public health to make cities and indoor environments more liveable and environmentally friendly for citizens. Additionally, investigate issues with the indoor environment and "green" building.

Sunday, June 21: 1:00 – 1:50pm **Community Planning Through the Eyes of Environmental Health**

Wade Sparkman, Director, Environmental Health, Florida Dept. of Health, Fernandina Beach, FL

Sunday, June 21: 2:00 – 2:50pm **Sustainable Public Health: The Florida Experience**

Sandra Whitehead, PhD, Environmental Health Public Health, Planner, Florida Dept. of Health, Tallahassee, FL

Sunday, June 21: 3:00 – 3:50pm **Mega Cities, Environmental Public Health, and Sustainability**

May L. Samuel, PhD, Director, Environmental Health Sciences and Public Health, Allen University, Columbia, SC

Sunday, June 21: 4:00 – 4:50pm **Moderated Roundtable Discussion: Sustainability and the Built Environment**

Wade Sparkman, Director, Environmental Health, Florida Dept. of Health, Fernandina Beach, FL; Sandra Whitehead, PhD, Environmental Health Public Health, Planner, Florida Dept. of Health, Tallahassee, FL; May L. Samuel, PhD, Director, Environmental Health Sciences and Public Health, Allen University, Columbia, SC

Monday, June 22: 1:00 – 1:50pm **EPA Recycling Tool Kit**

Rhonda Rollins, MEM, Team Leader, WasteWise and Municipal Government Toolkit, EPA Region 4, GA; Robin Billings, Environmental Scientist, RCRA Division, EPA Region 4, Atlanta, GA

Monday, June 22: 3:00 – 3:50pm **Sustainability and UL: A Growing Partnership**

Al Ramirez, Regulatory Services Manager, Underwriters Laboratory, Northbrook, IL

Tuesday, June 23: 8:30 – 9:20am **Green Buildings, Indoor Air Quality, and Health**

Paula Schenck, MPH, Assistant Director, Center for Indoor Environments and Health, University of Connecticut Health Center, Storrs, CT

Tuesday, June 23: 9:30 – 10:20am **The Healthy Homes Partnership Project**

Laura B. Booth, Administrator, Outreach Programs, Alabama Cooperative Extension System, Auburn University, Auburn, AL; Sandy Wiggins, PhD, Extension Specialist, Environmental Health & Housing, Dept. of 4-H Youth Development and Family

Tuesday, June 23: 2:00 – 2:50pm **The Effect of Green Rehabilitation of Low Income Housing on Children's Environmental Health: Recent Findings from Minnesota and Washington DC**

Susan Aceti, Program Manager, National Center for Healthy Housing, Columbia, MD

Wednesday, June 24: 9:30 – 10:20am **Radon: the Forgotten Menace**

Henry Slack, MS, Indoor Air Coordinator, EPA Region 4, Atlanta, GA; Patsy Brooks, Radon Program Manager, EPA Region 4, Atlanta, GA

SUSTAINABILITY VERSUS FOOD SAFETY

Attend these educational sessions for discussion around the efforts citizens are making to "green" their food consumption. Also learn about the latest efforts to "green" pest control in the area of food safety and preparation.

Monday, June 22: 1:00 – 2:00pm **It's Not Easy Being Green: Exploring Sustainability in Food Safety**

Zia Siddiqi, PhD, Director of Quality Systems, Orkin, Inc., Atlanta, GA

Monday, June 22: 4:00 – 4:50pm **Bringing the Farm to the City: The Issue of Raising Urban Livestock in Response to the Commercial Food Safety and the Economic Crisis**

CHILDREN AND EDUCATION

Participate in these educational sessions to learn how sustainability principles can be passed along to future generations and about the "green" curriculum that is currently being taught in institutions.

Sunday, June 21: 2:00 – 2:50pm **Students' Perspectives on Worldwide "Greening" of Tertiary Education Curricula for Sustainability**

Isoken T. Aighewi, PhD, MPH, Associate Professor, University of Maryland Eastern Shore, Princess Anne, MD

Tuesday, June 23: 8:30 – 9:20am **Connecting Today's Kids to Nature: Emerging Research in Children's Environmental Health—Challenges from and Solutions to Raising a Generation Indoors**

Na'Taki Osborne Jelks, MPH, Manager, Community & Leadership Development Programs, National Wildlife Federation, Atlanta, GA

Note: Some of these sessions are categorized under the General Environmental Health educational section of the conference.

Pre-Conference Workshops

NEHA RESERVES THE RIGHT TO CANCEL ANY OF THE WORKSHOPS IF THE MINIMUM ATTENDANCE REQUIREMENTS ARE NOT MET.

Environmental Health Training in Emergency Response (EHTER) – Introductory Level

» Thursday, Friday & Saturday, June 18-20, 8:00am – 5:00pm

Environmental Public Health Performance Standards Workshop: Building Local and National Excellence

» Saturday, June 20, 8:30am – 4:30pm

Environmental Public Health Tracking Workshop

» Saturday, June 20, 8:00am – 11:30am or 1:30 – 5:00pm

Guidance on Moisture and Mold: A Workshop for Environmental Health Professionals and Health Practitioners

» Saturday, June 20, 8:00am – 5:00pm

NSF Plan Review Survey Course

» Saturday, June 20, 8:30am – 5:00pm

Train-the-Trainer Workshop: Presentation Skills for Food Safety Educators

» Saturday, June 20, 8:00am – 5:00pm

HACCP Manager Certification Course

» Saturday, June 20, 8:00am – 5:00pm

Credential Courses and Exams

ONLY QUALIFIED APPLICANTS WILL BE ABLE TO SIT FOR AN EXAM, AND A SEPARATE APPLICATION FOR THE NEHA CREDENTIALS IS REQUIRED AND DUE TO NEHA BY MAY 8, 2009. FOR CREDENTIAL APPLICATIONS AND INFORMATION ON ELIGIBILITY, PLEASE VISIT NEHA'S CREDENTIALING DEPARTMENT ONLINE AT NEHA.ORG.

Certified Professional of Food Safety (CP-FS)

» REVIEW COURSE: Friday, June 19, 8:00am – 5:00pm

» EXAM: Saturday, June 20, 8:00 – 10:30am

Registered Environmental Health Specialist/Registered Sanitarian (REHS/RS)

» REVIEW COURSE: Friday & Saturday, June 19 & 20, 8:00am – 5:00pm

» EXAM: Monday, June 22, 8:00am – 12:00noon

Healthy Homes Specialist (HHS)

» REVIEW COURSE: Saturday, June 20, 8:00am – 3:00pm

» EXAM: Saturday, June 20, 3:30 – 5:30pm

CONTINUING EDUCATION CREDITS

Earn up to 24 hours of NEHA continuing education (CE) contact hours by attending the educational sessions at NEHA's 2009 AEC & Exhibition (visiting the exhibition alone qualifies you for up to two CE contact hours)! This is enough to meet your full two-year NEHA professional credential requirement.

The CE form will be available for download on the CD received at the registration desk. A limited number of hard copy forms will be available upon request at the registration desk. CE units have also been requested for correlating portions of the conference from the: American Board of Industrial Hygiene (ABIH); American Dietetic Association (ADA); American Indoor Air Quality Council (AmIAQC); and National Environmental, Safety & Health Training Association (NESHTA).

Be inspired to lead yourself,
your organization, and your profession into the future!

The Lecture Hall and Learning Laboratory NEHA offers you the opportunity to design your conference experience to meet your educational needs, and to choose how you want your education delivered by attending sessions in either the Lecture Hall (LH) or the interactive Learning Laboratory (LL). Both the LH and LL are rich learning environments that will equip you with the skills, knowledge, and tools you seek.

Lecture Hall

Choose sessions from **NEHA's Lecture Hall**, a rich learning environment, which includes:

- » 160+ speakers
- » 130+ educational sessions
- » Comprehensive information
- » Time for Q & A
- » Opportunities to hear from experts
- » Presentations on CD to use as a resource after the conference
- » Quality education that you've come to rely on

Learning Laboratory

Choose sessions from **NEHA's Learning Laboratory**, which will feature a variety of opportunities to interact with experts and to be the expert by sharing your knowledge! Sessions being planned include interactive experiences, such as:

- » Summits & Symposiums
- » Roundtable discussions
- » Group exercises
- » Hands-on activities
- » Innovative presentation formats
- » Panel discussions
- » Exhibitor Education Forum (EEF)
- » Poster session

AWARDS CEREMONY

Sunday, June 21 • 9:00-10:15am

The Awards Ceremony honors the best of the best in environmental health. Be inspired by environmental health professionals and students doing outstanding work in our field of practice. This is a morning of recognition and inspiration you're not going to want to miss!

KEYNOTE SESSION

Sunday, June 21 • 10:15-11:30am

SUSTAINABILITY: A CRUCIAL NEW ROLE IN THE EVER EVOLVING PRACTICE OF ENVIRONMENTAL HEALTH

At last year's AEC & Exhibition, NEHA used a keynote panel to launch a critical discussion across the profession that we titled: "Who Are We and Who Do We Want To Be?!" At this year's AEC & Exhibition, NEHA's keynote session will emphatically respond to that question with a stirring presentation to be delivered by Howard Frumkin, MD, MPH, DrPH. Dr. Frumkin is the Director of CDC's National Center for Environmental Health (NCEH)/Agency for Toxic Substances and Disease Registry (ATSDR). His keynote will focus on the evolving role of environmental health in the larger issues of global warming, sustainability, and built environments.

Dr. Frumkin is passionate about environmental health and the role it needs to play in emerging topics such as sustainability. His presentation style fuses his passions with strikingly vivid teachings. His audiences can expect to become highly informed, deeply grounded, and ready to take up the cause. Such is NEHA's goal in making this gifted speaker and leader the keynote presenter for this year's conference.

It is NEHA's judgment that the profession of environmental health is evolving and changing in response to the economic crisis engulfing our nation, the emergence of performance standards for environmental health, and changing priorities that are impacting our field of practice. In response, NEHA is making the effort to understand these changes so that we can prepare the profession for its future roles.

Dr. Frumkin will make the case for environmental health's involvement in sustainability. He will explore how we can assist communities and governments develop far reaching and long-term strategies designed to ward off prolonged climate change and achieve sustainable ways of living with and within the natural environment. The presentation will discuss everything from the health implications of global warming to the health consequences of how our built communities function. Most importantly, it will map out an important new avenue for positive growth for the environmental health profession.

Prior to his current position at NCEH/ATSDR, Dr. Frumkin was the Chair of the Department of Environmental and Occupational Health at the Rollins School of Public Health at Emory University. He is also an internist, an environmental and occupational medicine specialist, and an epidemiologist. He serves, and has served, on numerous prestigious environmental health committees and has been a consultant to several top corporations and unions. Dr. Frumkin was named Environmental Professional of the Year by the Georgia Environmental Council in 2004, and is a national leader in the area of the built environment and health. He is the author or co-author of over 100 scientific journal articles and chapters, and has written numerous books. Dr. Frumkin's education includes a BA from Brown University, an MD from the University of Pennsylvania, an MPH and PhD from Harvard, internal medicine training at the Hospital of the University of Pennsylvania and Cambridge Hospital, and occupational medicine training at Harvard. He is board-certified in both internal medicine and occupational medicine, and is a fellow of the American College of Physicians and the American College of Occupational and Environmental Medicine.

Participation from the Centers for Disease Control and Prevention at the NEHA 2009 AEC & Exhibition

As the nation's premiere health promotion, prevention, and preparedness agency and a global leader in public health, it seems only fitting that the NEHA 2009 AEC & Exhibition be held in Atlanta—the hometown of the Centers for Disease Control and Prevention (CDC). NEHA has drawn upon CDC's vast expertise to help explore and define the evolution of our profession. From the keynote speaker, Dr. Howard Frumkin, to tours on the CDC campus—the involvement of CDC in the NEHA conference gives attendees the opportunity to learn and interact with an agency and group of experts that are helping to lead environmental health into the future.

Stay tuned to the NEHA Web site (neha.org) for further developments of CDC's involvement in the NEHA 2009 AEC & Exhibition.

Special Events

MEET NEW PEOPLE, LEARN NEW THINGS, AND CATCH UP WITH COLLEAGUES DURING THE SPECIAL EVENTS HELD AT THE CONFERENCE.

Saturday, June 20

Golf Tournament: Enjoy an afternoon with your friends and colleagues on a beautiful golf course. The registration cost includes green fees, lunch, cart, and more.

NEHA Ice Breaker Reception: Get settled into your room and then come mingle with NEHA's Board of Directors and your friends from afar. Enjoy light hors d'oeuvres as you feel the anticipation of the events of the next four days in the air. *No charge.*

Sunday, June 21

Awards Ceremony & Keynote Session: The Awards Ceremony honors the best in environmental health. Be inspired by environmental health professionals and students doing outstanding work in our field of practice. This is a morning of recognition and inspiration you're not going to want to miss!

This year's keynote session will feature Dr. Howard Frumkin, MD, MPH, DrPH, from the National Center of Environmental Health/Agency for Toxic Substances and Disease Registry. Dr. Frumkin's presentation will explore how environmental health professionals can assist communities and governments develop far reaching and long-term strategies designed to ward off prolonged climate change and achieve sustainable ways of living with and within the natural environment.

Exhibition Grand Opening & Party: Come and meet the exhibitors and learn how they can be your partners in environmental health. There will be food, fun, and the opportunity to do business and socialize at this party. Stop by the Silent Auction and bid on unique items and gifts. The proceeds raised by the Silent Auction support the fund to bring speakers to the Annual Educational Conference & Exhibition. *This event is included with most registrations.*

Monday, June 22

Annual UL Event: Night at the Aquarium: NEHA conference attendees will get private access to the Georgia Aquarium during the Annual UL Event. The aquarium tells a global water story with more than 60 exhibits, and is home to a state-of-the-art animal health facility that is the only integration of an aquarium and a veterinarian teaching hospital. The aquarium supports, conducts and leads research on environmental and conservation issues. This exciting evening starts with access to the exhibits from 5:30-7:30pm. From 7:00-9:00pm, enjoy hors d'oeuvres and a cash bar in the Atlantic Ballroom at the Aquarium.

Tuesday, June 23

Networking Luncheon: Enjoy a wonderful meal, meet new people, learn new things, and visit with old friends at the Networking Luncheon. *This event is included with most registrations.*

Wednesday, June 24

President's Banquet: Concluding the conference is this semi-formal evening of excellent food and gathering with friends. Remarks from NEHA's new president, and the presentation of two distinctive awards highlight the evening and wrap-up the conference. The banquet will take place at the Westin. *This event is included with most registrations.*

Why should you attend? What's in it for you? What's in it for your organization?

The National Environmental Health Association Annual Educational Conference & Exhibition offers robust education on the large variety of topic areas and issues facing the environmental health profession with over 200+ speakers and 170+ educational sessions. The conference offers vital knowledge that you and your organization can apply to strengthen environmental health programs in a regulatory agency or industry organization. For a complete list of educational sessions and full conference information, visit neha.org.

"Greening" the Conference

NEHA is continuing to pursue ways in which we "green" our AEC & Exhibition. We are building upon last year's effort by expanding the focus on sustainability as an educational track; asking exhibitors to "think green" in their exhibiting efforts; awarding the 2nd Annual Excellence in Sustainability Award; and more. Be a participant in this effort — carbon offsets for your travel to the conference may be purchased for \$10 along with your conference registration.

plan ahead, NEHA's AEC & Exhibition...

June 5-9, 2010

Albuquerque, New Mexico
