Non-Exclusion Affidavit for General Contractors

Federal, state, and local government agencies, not-profits, and other organizations that use federal money to fund all or part of any program or project are required to follow specific requirements regarding the use of such federal funds. One of these requirements is that no contract, subcontract, grant, financial assistance, or other forms of assistance provided using federal funds may be awarded to individuals or entities that have been suspended, debarred, or otherwise excluded from participation in federally funded programs.

The U.S. federal government maintains a Web site known as the “System for Award Management” (SAM) at www.sam.gov. One of the purposes of the SAM Web site is to provide a comprehensive list of all individuals, firms, and other entities that have been suspended, debarred, or otherwise excluded from participation in federally funded contracts, subcontracts, grants, etc. SAM provides a simple means of helping government, non-profit agencies, and other organizations ensure that they do not award federally-funded grants, contracts, subcontracts, or other financial or non-financial benefits to any individual, firm, or other entity that has been excluded by any agency from participation in such federally funded activities.

I, ______________________________ (Contractor Representative), hereby certify that neither I nor ______________________________ (Name of the company or organization I represent) nor any subcontractors that I or said company may employ to work on any federally funded activity have been suspended, debarred, or otherwise excluded by any federal agency from participation in any federally funded activity. I further acknowledge my understanding that, before entering into a contract with me or with the company or organization I represent, City of Mesquite staff will perform a search on www.sam.gov to verify whether I, the organization I represent, or any subcontractors I may employ to work on any federally funded activity, have been excluded from participation in any federally funded activity.

PROPOSAL EVALUATION

RFP shall be awarded to the best-quoted proposal. The proposals will be evaluated on the factors outlined below which shall be applied to all eligible, responsive proposals in selecting the successful offerer. Award of a contract may be made without discussion with proposers after responses are received. Proposals should, therefore, be submitted on the most favorable terms.

Evaluation Process

The City’s Evaluation Committee will initially review and evaluate each proposal received to determine the proposer’s ability to meet the requirements of the City. The evaluation criteria described below will be the basis for evaluation.

The Evaluation Committee will determine the vendors best suited to meet the needs of the City based on the scoring of the evaluation criteria. These vendors will be the Short List vendors.

The City, at its sole discretion, reserves the right to have system demonstrations with those proposers identified as Short List vendors, or any other vendors. Demonstrations will be conducted at City offices. Time limitations and demonstration requirements will be provided with the notification. Each Evaluation Committee member will score the demonstration.

A Pre-Demonstration Vendor Teleconference will take place for those vendors that have been short-listed. The demonstration schedule and script will be provided in advance of the Pre-Demonstration Vendor Conference and vendors will have an opportunity to review the format of the demonstrations and ask questions related to procedure and specific demonstration scenarios. This meeting will be conducted via teleconference.

Demonstrations will be assigned a portion of the overall Technical Capability score. The City may elect, at its sole option, not to conduct discussions or demonstrations with respondents. Demonstrations will involve scripted scenarios and provide City staff the ability to see a fully functional version of the proposed software and maintenance allowing a more detailed understanding of the software and maintenance to address specific concerns or questions.
