NEHA 2018 AEC and HUD Healthy Homes Conference
Anaheim • California • June 25-28, 2018

Bridges, Bonds, and Benefits

Conference sponsored by Green & Healthy Homes Initiative®
The NEHA 2018 AEC is your opportunity to meet and interact with over 1,000 environmental health professionals to learn and discuss some of the most important environmental health issues we face today. Learn how your peers are working with multiple agencies, industries, and levels of government to build bridges, bonds, and benefits to ensure the safety of the public and environment, and to further the environmental health profession.

**Keynote Address:** Monday, June 25
Frank Yiannas | Walmart Vice President of Food Safety and Health

In this innovative presentation, “Food Safety + Behavior,” Frank Yiannas, Walmart Vice President of Food Safety and Health, will provide fascinating insights into proven behavioral science principles with suggested applications on how they might be used to advance food safety and environmental health.

**Grand Session Kickoff:** Tuesday, June 26
RADM Stephen Redd, MD | Director of the Office of Public Health Preparedness and Response, Centers for Disease Control and Prevention (CDC)

Dr. Redd is no stranger to the demands of leading national efforts to combat a public health emergency. Don’t miss this informative and insightful discussion about disaster relief efforts and the importance of environmental health.

**Choose From Over 200 Impactful, Insightful, and Interactive Educational Sessions in a Variety of Environmental Health Topics!**

**Emergency Preparedness**

Learn how engineers, academia, and environmental health professionals are working together to prepare for emergencies and disaster.

**Sessions of interest:**
- Integrating Environmental Health, Structural Engineering, and Risk Management for Disaster Risk Reduction and Resiliency
- Hurricane Harvey, Wildfire Smoke Health Risks
- Terrorist, Toxics, and Homeland Security

**Food Safety**

Cannabis-infused food products pose many food safety concerns. Educational sessions will address issues such as cannabis policy, product labeling, product testing, and advertising restrictions. Other emerging food safety topics covered will include the growth of the food truck industry, home restaurateurs, and fish fraud in retail food.

**Sessions of interest:**
- San Francisco Bay Area Cannabis Foodborne Illness Outbreak Collaborated Response
- Listeria Controls at Retail: Nationalwide Surveillance Results

**Water Quality**

Water is our planet’s most valuable resource. It is vital that we build an understanding of the various health issues around water and how they affect us all. A variety of sessions focusing on recreational water, premise plumbing, water quality and onsite wastewater/water reuse will be available for you to attend.

**Sessions of interest:**
- The 2018 model Aquatic Health Code is Here: What are the Key Changes
- Frequently Asked Questions About Unregulated Drinking Water
- Alternate Water Systems – OWNS (On-Site Non-Potable Water Systems)

**Healthy Homes & Communities**

Choose from a large variety of healthy homes topics including air quality and asthma, land reuse and sustainability, and climate change and health. Sessions will also delve into the home health risks of lead from poisoning, prevention, and awareness angles.

**Other Informative Topics Include:**
- Infectious & Vector Borne Diseases
- Data & Technology
- Built Environments
- General Environmental Health
- Special Populations
- Workforce & Leadership
- Climate & Health
- Infectious & Vector Borne Diseases
