

NEHA Legislative Update - Food Safety, Enacted 2020

Last Updated: August 28, 2020

Food Safety Legislation Enacted in August 2020

Food Safety Legislation Enacted in August 2020

NEHA identified 223 bills introduced and 78 enacted in 30 states and DC related to food, food safety, retail food and cannabis as a food product.

Food safety was the main topic with 77 bills introduced and 30 bills enacted. California A 619 allows for a food facility to use multiuse utensils; CA S 677 requires food employees to use nonlatex utensils, including gloves. Hawaii enacted H 463, which establishes a food safety certification training program to assist small to medium sized farms to comply with the USDA's Good Agricultural Practices Certification Program. Indiana H 1210 changes the title of certified food handler to certified food protection manager. Kentucky's H 420 seeks to implement FDA's Food Safety Modernization Act. Louisiana H 136 creates the crime of adulterating food. Washington's S 6091 seeks to continue the work of the state's food policy forum.

Another 29 enacted bills addressed food facilities. Illinois H 3343 allows restaurants to accept SNAP vouchers (food stamps). California A 619 provides that clean consumer owned containers provided or returned to the food facility for filling may be filled by either the employee or the owner of the container. Maine LD 982 expands the use of WIC at farmers' markets. Washington's S 5218 concerns mobile food facilities.

Oklahoma enacted 3 bills regarding sales of foods at farmers' markets (H 1055, S 544, S 1785). Washington's S 6309 expands SNAP access to fruits and vegetables at farmers' markets.

Colorado's S 20-078 allows dogs on restaurant patios.

Seven bills were enacted seeking to clarify the use of cannabis in foods. California S 34 allows retail food operations to provide free cannabis products to medical users. Maine's LD 719 and LB 630 states that foods made with cannabis products cannot be considered adulterated. Virginia enacted S 918 creating the Industrial Hemp Fund.

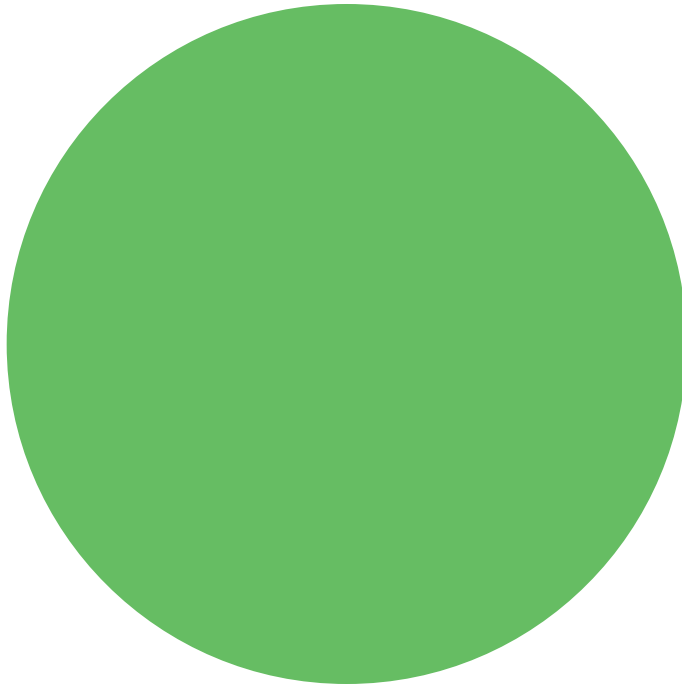

The continued expansion of Cottage Foods and Food Freedom leads to extra challenges for food safety professionals. Of the 43 introduced, 13 bills were enacted on cottage foods in 10 states. California's AB 377 limits home kitchen operations. Maryland H 1017 requires cottage food products include a label identifying the operation's name and phone number. Maine H 573 establishes a Constitutional Amendment regarding the right to food, which will be presented to voters in November. Texas' H 1694 and S 572 seeks to limit the scope of cottage foods in that state. Wyoming's H 84 expands the state's food freedom laws.

State enactment of FSMA also adds to state and local food safety programs. The six bills addressing cannabis in foods further brings marijuana and hemp into the food safety realm. The state and local food safety agencies will have to regulate cannabis products in foods. Maine's law could be problematic, determining that cannabis is not considered an adulterated food product.

North Carolina H 735 authorizes the adoption of the FDA 2017 Food Code.

Kentucky H 369 allows taxidermists to dispose of cervid meat. Maine LB 351 provides that poultry and meat products may not be labeled as a certified state product unless the meat was raised solely in the state. Montana S 56 repeals the meat and poultry inspection appeals process. Oklahoma H 2008 permits the sale of beef and bison in intrastate commerce. OK H 2155 prohibits the feeding garbage to swine. South Carolina H 4245 makes it unlawful to represent cell cultured meat as meat or protein.

RESOLUTION, Proposing an Amendment to the Constitution of Maine To Establish a Right to Food

Primary Sponsors
Craig Hickman

Bill Summary: Last edited by Doug Farquhar at Jun 18, 2020, 3:53 PM
Proposes a Constitutional amendment relating to rights to food and food sovereignty and freedom from hunger; declares that all individuals have a natural, inherent, and unalienable right to acquire, produce, process, prepare, preserve and consume and to barter, trade, and purchase the food of their own choosing for their own nourishment, sustenance, bodily health, and well being.

Section 25. Rights to food and food sovereignty and freedom from hunger. All individuals have a natural, inherent and unalienable right to food, including the right to acquire, produce, process, prepare, preserve and consume the food of their own choosing by hunting, gathering, foraging, farming, fishing, gardening and saving and exchanging seeds or by barter, trade or purchase from sources of their own choosing, for their nourishment, sustenance, bodily health and well-being, as long as an individual does not commit trespassing, theft, poaching or other abuses of private property rights, public lands or natural resources in the acquisition of food; furthermore, all individuals have a fundamental right to be free from hunger, malnutrition, starvation and the endangerment of life from the scarcity of or lack of access to nourishing food.
