### Imminent Health Hazards (IHH's) in 2017

- **56%** of IHH's in 2017 were issued during the mobile unit's *first* routine inspection.
- **92%** of IHH’s in 2017 were issued for lack of adequate hot water at the hand washing sink.
- **13%** of IHH’s in 2017 were issued for not using approved commissary when required.
- **6%** of IHH’s in 2017 were issued for lack of soap and/or approved drying device.

11% of the IHH's issued in 2017 were for multiple imminent health risks.

Mobile Retail Food Establishments shall operate in a manner to prevent an imminent health hazard. Violations that create an imminent health hazard may result in a fine up to $2000 and a CLOSURE.

---

*Imminent health hazards can be directly related to causing consumer illness*
