

National Environmental Public Health Internship Program

Summer 2019

25

19 Undergraduate
6 Graduate

CDC

Sponsored program aimed at encouraging environmental health students to consider careers at state, local, and tribal health departments following graduation. Expose students to the exciting environmental health career opportunities at your health department!

NEHA

Is accepting applications for 25 environmental health intern placements at environmental health departments around the country during Summer 2019 for 10 week internship engagements

STUDENTS

Receive a stipend of \$4000 to \$6000 from NEHA to cover their expenses. Additional relocation stipend available to cover student travel costs

For more information and to apply to sponsor a student visit us at:
